

Cedar Louvre Window

Product Features:

- Adjustable louvre window system is designed to compliment out full range of cedar products.
- Louvre blades are fitted using Breezway mechanisms, which provide excellent water resistance and a tight seal to reduce drafts.
- The wide cedar frame allows a flyscreen to be fitted within the frame line.
- Standard blade heights are 102mm and 152mm. When choosing a frame height allow for full height blades to give the best appearance.
- Louvre windows are a good energy efficient solution to bringing natural light, fresh air and a sense of space into your building design.
- Louvre mechanisms can be key locked.
- Fixed sill has a tapered design to assist drainage.
- 168mm sill available.
